

Logging into Blackboard 9 and getting to your course

1. Go to <http://www.courses.maine.edu>
2. Enter your username and password and click **Login**. (Contact Technical Support if you do not know your username and/or password. For all UMS employees, use your @maine.edu e-mail username as your Blackboard username and the password for this account as your Blackboard password.)
3. In the **My Courses** area, click on the link to the course.

Inactive course sites are removed from Blackboard beginning one year after the end of the semester in which the courses were taught in order to clear server space.
